**Bishop Museum August 2025
Exhibitions, Public Programs, and Events**

Honolulu, Hawai‘i — [Bishop Museum](https://www.bishopmuseum.org), the State of Hawai‘i Museum of Natural and Cultural History, shares its August 2025 exhibitions, public programs, and events. A full and continually updated listing can be found on the Museum’s website, [BishopMuseum.org](https://www.bishopmuseum.org). For more information on any of the items listed, please contact Lance Aquino with Stryker Weiner & Yokota Public Relations, Inc.

August sees the opening of our newest exhibition, [*Explore EXCORE: The Art of Underwater Science*](#), and an outdoor screening of the beloved animated film “The Land Before Time” at [Museum After Hours](#). Plus, Bishop Museum’s popular online auction, [E Ulu A Pa‘a](#), returns with dozens of one-of-a-kind treasures and unique Bishop Museum experiences up for bid.

- Opening Aug. 24, 2025 | Exhibition
[*Explore EXCORE: The Art of Underwater Science*](#)
J. M. Long Gallery

Included with Museum admission. Free for Bishop Museum Members.

Dive into the vivid world of EXCORE’s revolutionary underwater cinema with *Explore EXCORE: The Art of Underwater Science*, and be surrounded by amazing coral reef imagery captured in breathtaking clarity. Each frame is more than a stunning visual; it’s a permanent scientific record of 21st-century reef biodiversity, preserved today for generations to come.

EXCORE, Bishop Museum's Center for the Exploration of Coral Reef Ecosystems, has led the way in deploying — and even inventing — the world's most advanced technologies to survey, study, and celebrate the astonishing biodiversity of coral reefs.

Media Preview Opportunity on Thursday, Aug. 21, 2025, 1-4 p.m.

Bishop Museum invites members of the media to attend an exclusive pre-opening, closed-door Media Preview of *Explore EXCORE*. Please RSVP with Lance Aquino via the contact information above.

Interview opportunities include:

- Richard Pyle, Bishop Museum director of EXCORE, co-curator of *Explore EXCORE*
- DeAnne Kennedy, Bishop Museum exhibit designer

[*Kū a Lanakila! Expressions of Sovereignty in Early Territorial Hawai'i, 1900-1920*](#)
J. M. Long Gallery

Included with Museum admission. Free for Bishop Museum Members.

Kū a Lanakila! Expressions of Sovereignty in Early Territorial Hawai'i, 1900-1920 delves into the ways Kānaka ʻŌiwi (Native Hawaiian people) asserted their presence and sovereignty during Hawai'i's early territorial period through cultural and political expressions. Featuring a stunning array of artifacts, including ʻahu ʻula (capess), lei hulu (feather lei), banners, and political ephemera, the exhibit highlights how Native Hawaiians engaged in public ceremony, competitive sports, and political activism to maintain their identity and agency in a time of profound change.

- Ongoing | Exhibit
[*Expedition Dinosaur: Into the Deep*](#)
Castle Memorial Building

Included with Museum admission. Free for Bishop Museum Members Patron level and above; discounted fee of \$3 for all other Membership levels and for guests of Members.

Dinosaurs have returned to Kaiwiʻula! For the first time on Oʻahu, guests will be able to experience, up close and personal, oceanic and aquatic reptiles from the Jurassic period — along with favorites like the T-Rex and Stegosaurus. Designed by Stage 9 Exhibits, *Expedition Dinosaur: Into the Deep* features lifelike animatronic dinosaurs with realistic movement and sound.

Coral Reef Ecosystems
Richard T. Mamiya Science Adventure Center

This exhibit in Bishop Museum's Richard T. Mamiya Science Adventure Center showcases the

rich biodiversity in our islands' coral reefs, presented as two distinct sections: shallow sunlit reef systems and deeper mesophotic coral reefs.

On the ground level of the Science Adventure Center, the exhibit features the shallow sunlit reef systems that most of us are familiar with, highlighting some of the native corals that make up our reefs in Hawai'i.

The lower, second level of the exhibit highlights the deeper and less familiar mesophotic coral reefs, often referred to as the "twilight zone" of the ocean, where light barely penetrates. Deep sea fish and other mysterious creatures are represented here, giving guests a close-up look into the darker environment being explored by Bishop Museum scientists.

Lele o Nā Manu: The Splendor and Loss of Hawai'i's Birds
Science Adventure Center

Included with Museum admission. Free for Bishop Museum Members.

Lele o Nā Manu: The Splendor and Loss of Hawai'i's Birds features 47 exquisite carvings of endemic manu nahele by master craftsman, Haruo Uchiyama. The complete set of historically known Hawaiian honeycreepers are displayed atop an original mural painted by local artist, Patrick Ching. The exhibit also includes a mural by Dr. Julian Hume depicting prehistoric Kīpahulu Valley, Maui; fossils of extinct Hawaiian bird species; and an interactive game.

The opening of *Lele o Nā Manu* coincided with Ka Makahiki o nā Manu Nahele, the Year of the Forest Birds, a campaign to celebrate and raise awareness around Hawai'i's native forest birds.

About Bishop Museum, the State of Hawai‘i Museum of Natural and Cultural History:

Bishop Museum’s mission is to inspire our community and visitors through the exploration, celebration, and perpetuation of the extraordinary history, culture, and environment of Hawai‘i and the Pacific. The Museum was founded in 1889 by Charles Reed Bishop in memory of his wife Bernice Pauahi Bishop, a royal descendant of King Kamehameha I. Today, the Museum thrives as an educational center for the community and is widely regarded as the world’s premier institution for Hawaiian and Pacific content.

Bishop Museum’s vast collections of more than 25 million objects and specimens represent nine disciplines and include more than 22 million biological specimens, over 2 million cultural objects, 115,000 historical publications, and 1 million photographs, films, works of art, audio recordings, and manuscripts. These collections tell the stories of the cultures and biodiversity of Hawai‘i and the Pacific as well as the proud legacy of scholarly research spanning 130 years.

Bishop Museum proudly serves more than 200,000 visitors each year, including 20,000 children on school visits.

KAMAKAUNUIAMĀUI

Kamakaunuiamāui (The Big Fishhook of Māui), also known as Mānaiakalani or Scorpius, rises in the southern skies. This hook-shaped constellation is embedded within the dark space in the Milky Way, or Ka I'a. As Māui's fishhook travels across the sky from east to west, it also pulls Pimoe or Sagittarius, the great ulua fish, across the sky. The most prominent red star, Lehuakona or Antares, can be seen within the constellation of Kamakaunuiamāui, in its barb, called Kamaka. Next time you visit Hawaiian Hall, visit Māui's fishhook in the display case on the first floor.

HAWAIIAN LUNAR MONTH

"There were 360 days in a year. Ka po'e kahiko counted 30 days in each month of the 12 months of the year. There were 17 nights that were counted in groups and 12 counted separately, according to the phases of the moon."

—Samuel Mānaiakalani Kamakau, 1870
