About “Jurassic Park” (1993)

Directed by Steven Spielberg and written by Michael Crichton and David Koepp, based on Crichton's 1990 novel.

Runtime: 127 minutes

“Jurassic Park” is set on the fictional island of Isla Nublar near Costa Rica, where a wealthy businessman and a team of genetic scientists have created a wildlife park of de-extinct dinosaurs. When industrial sabotage leads to a catastrophic shutdown of the park's power facilities and security precautions, a small group of visitors struggle to survive and escape the now perilous island.

About *Expedition Dinosaur: Into the Deep*

Expedition Dinosaur: Into the Deep guides guests through the fascinating chronicles of oceanic dinosaurs, answering key questions along the way such as what they ate, where they lived, and how we know they existed. Designed by Stage 9 Exhibits, the exhibit features lifelike animatronic dinosaurs with realistic movement and sound along with interactive elements throughout the exhibit, including tools and equipment to scan for fossils in rocks and simulate a fossil dig.

Bishop Museum would like to thank Pasha Hawaii and First Insurance Company of Hawaii for helping make this exhibit possible.
